

Aakash Sharma

Summary

A Data Scientist, Maker and Engineer with expertise in Defense, Data Science, Drones and AI. Skilled in integration of AI, Machine Learning and Data Science Applications in Engineering and Manufacturing Defense Solutions.

Internships

R & D Intern
Kapoor Engineers Pvt. Ltd.

Lucknow, India | April 2025 – Present

- Tasked with R&D and mass manufacturing of equipment for Indian Defense Forces.
- Developed Flight Simulator Systems indigenously, replacing imported counterparts.
- ROS2 Based Systems, for Mapping and Surveillance.

Student President
Analytix Lab Pvt. Ltd.

Remote | April 2025 – June 2025

- Responsible for Handling Student Community of 200 Students, with a team of 5 Heads at Lingaya's Vidyapeeth.

Content Writer and Graphics Intern,
Lingaya's Vidyapeeth

Faridabad, India | August 2024 - September 2024

- Wrote visually impactful content under deadline with an exciting, captivating approach with the script under 1 minute.

Accomplishments and Initiatives

- Founded **Akash Up-Cycles**, a Delay Mechanism Startup that has saved more than 5.5 tons of carbon emissions to date, and also awarded by our **Honorable Chief Minister of Haryana**.
- Leading AI/ML and Robotics Lab at Lingaya's Vidyapeeth to create Innovative and new Technologies with 30+ Projects completed and ongoing.
- Speaker at Microsoft Season of AI 2.0, and Code without Barriers.
- Guest speaker on three-day workshop on basics of robotics

Projects

- **Micro Drones**, 3D printed 35mm*35 mm drones, with Wi-Fi and radio controls with live camera feed, with custom miniature flight controller.
- **Custom Flight Controller**, for Quadcopters.
- **2.4 GHz DF ESM system**, Handheld Pocket system with a range of 50-100 m, with ability of DF, Protocol Fingerprinting, AOA, and DOA.
- **2.5 GHz Handheld Jamming Module**, Complete 2.380Mhz to 2.525 MHz range Jamming, including protocols like BLE, Bluetooth, Drones (AFHDS3.2).
- **ROS2 Based Lidar Mapping System**, Complete Edge Mapping platform.
- **De-auth Watch**, based on Dstike open firmware, with custom RTC functions.
- **Autonomous Disaster Management Drone(s)**, autonomous drones for flooded areas for recon and supply.
- **Wireless controlled Humanoid Robotic Arm**, using Computer vision.
- **Shoulder mounted Delta Turret system**, with Hybrid Railgun as main projectile launcher (and AI assistant).
- **Personal AI Chat-Bot**, Offline Personalized AI Assistant with Machine Controls
- **Hard-coded a Neural Network from NumPy** with 93% accuracy for a Vertical Dataset.

Voluntaries

Controls – Sub-Head, Lingaya's Vidyapeeth

Faridabad, India | September 2024 - November 2024

- Worked as Volunteer Sub-Head and Handled IT for a 2 Day Fest which included numerous tasks like: Data Handling, Budget Handling, Graphic Design, and MOU Drafting.

Event Host- Cypherous 2k25, Lingaya's Vidyapeeth

Faridabad, India | January 2025 – March 2025

- Proposed, organized, and hosted a single-day technical fest which included 8 technical events of multiple disciplines.

Education

Lingaya's Vidyapeeth,
Faridabad

Bachelor of Computer
Applications in Data Science
2023 – 2026

Skills

- Fusion 360 (CAD/ CAM)
- Autonomous systems
- Drones
- SLAM and Lidar Mapping
- FDM 3D Printing
- ROS and ROS 2
- PCB Design
- EasyEDA
- Edge Computing
- Artificial Intelligence
- Machine Learning
- Control Systems
- CI/CD Pipeline
- Research
- Public Speaking
- Analytics
- Python Programming
- Deep Learning
- Microcontrollers
- Python
- Git

Certifications

- NPTEL Deep Learning
- NPTEL Operating Systems
- HackeRank – SQL(BASIC)
- HackeRank – SQL(Advance)
- HackeRank – Python (Basic)
- Toyota – Self- Charged Hybrid Vehicles
- BizWiz – Advance Excel Training
- BizWiz – Macro and Dashboard Training
- Scaler – Data Science Using Python
- AWS - Moving to managed databases
